Rejuvenating Facial Treatment

This facial treatment commences with a scalp massage then a gentle cleanse to remove make-up and impurities, followed by exfoliation to remove dead cells, then a warm mist of steam to hydrate and oxygenate your skin, next is a relaxing massage of your shoulders, neck and face using aromatic oils. An intensive mask is then applied. Finally, a floral mist and concentrate is applied under a day cream. Includes a complimentary hand or foot massage. Eyebrow tidy included.
