PLUMBING

LOOKING FOR A PROFESSIONAL PLUMBER IN AUCKLAND?

Our loyal customers define us by three qualities; reliable workmanship, efficient communication, and friendly service. Whether working plumbing maintenance issues a renovation project, or installing a hot water system, gutter guard, or spouting, we bring the same level of professionalism to every installation.

WATERTANK CLEANING

It is absolutely essential to have your water tank cleaned regularly in order to avoid contamination and protect your water supply. Any matter that falls onto your roof and into your gutters can affect the purity of your water, and this in turn can lead to major health problems.

Dynamic Plumbing Works have the specialist equipment to handle fast and efficient cleaning of your water tank. Regular cleaning and maintenance can also help prevent blockages and ensure maximum flow of water to your tank.

SPILL RESPONSE

We offer a prompt spill response service, covering everything from diesel and oil spills to ammonia, concrete and powder spills.

If you have the spill, we have the equipment, we have the training and we have the experience to efficiently handle it.

HYDRO-EXCAVATING

HYDRO-EXCAVATION IS THE ONLY PROVEN METHOD OF EXPOSING EXISTING SERVICES WITH ZERO DAMAGE.

Our specialist equipment can help with the following:

- “Potholing” - checking for services along the thrusting route
- Exposing known services for repair, maintenance or to lay new beside old
- Trenching around trees without damaging tree roots
- Trenching around transformers without damaging power cables

VACUUM LOADING AND DRAIN UNBLOCKING

A good, functioning drainage system is vital to any workplace running smoothly, safely and healthily. So if there is a problem, don't leave it until it blocks, get Dynamic Plumbing Works on the job. Our new vacuum/drainage truck with a built in 55L per minute Hydro Unit along with our specially designed nozzles will clear most blockages with ease. When it comes to drain unblocking this is hard to beat.

Our truck is equipped to access even the tightest spots - no challenge is too big, no location too hard.

Our huge vacuum pump and holding tank make removing waste from cesspits, septic tanks and grease traps a breeze. After a light waterblast, often leaving the area tidier than when we arrived.
